

Treyden Wilson
Lab 1
CS 470 Operating Systems

The image shows a terminal window titled "Ubuntu Linux [Running]" with a subtitle "Jan 4 23:46". The window is part of a desktop environment with a sidebar on the left containing icons for Activities, Terminal, and various applications. The terminal itself has a title bar "treydenwilson@treydenwilson-VirtualBox: ~" and a message: "To run a command as administrator (user \"root\"), use \"sudo <command>\". See \"man sudo_root\" for details." Below this, the user has entered the command "date", which returned "Wed Jan 4 11:43:49 PM PST 2023". Then, the user entered "who", which returned "treydenwilson tty2 2023-01-04 23:39 (tty2)". The prompt "treydenwilson@treydenwilson-VirtualBox:~\$" is visible at the end of the last line.

```
treydenwilson@treydenwilson-VirtualBox: ~  
To run a command as administrator (user "root"), use "sudo <command>".  
See "man sudo_root" for details.  
  
treydenwilson@treydenwilson-VirtualBox:~$ date  
Wed Jan 4 11:43:49 PM PST 2023  
treydenwilson@treydenwilson-VirtualBox:~$ who  
treydenwilson tty2 2023-01-04 23:39 (tty2)  
treydenwilson@treydenwilson-VirtualBox:~$
```
